How to connect the Definitive W Studio Advance sound bar to the Internet

- 1. Open the Google Home app and from (a) the Home screen, tap the (b) Add icon "+".
- 2. Select "Setup device."
- 3. Under (a) "New devices", select (b) "Set up new device."

- 4. Select "Home" and click "NEXT."
- Select your device (DT Studio Advance) from the list of devices found and click "NEXT."
 Make sure you're close to the sound bar; when connection is stablished, the sound bar will make a sound.
- 6. Click Yes if you heard the sound from the sound bar.

7. Follow the sharing device stats, location selection and name prompts and then click "NEXT."
